Type

Extra information

Single choice questions

These questions consist of a stem and multiple answer options, with only one correct choice.
Variants: mc-questions, yes/no questions, true/false questions.

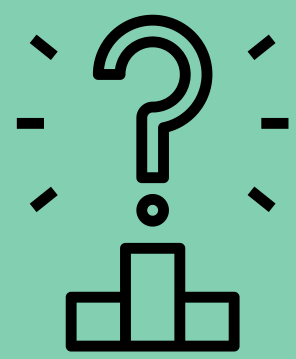

Multiple-response questions

These questions consist of a stem and multiple answer options, where one or more of the alternatives can be correct.*

Fill in the blank

These questions consist of a stem and input field(s), with the possibility of multiple input fields.*

Ranking questions

These questions include a stem and various alternatives that candidates must arrange in the correct sequence by dragging or clicking.*

Matching questions

These questions consist of a stem and various alternative link destinations, which candidates connect by drag-and-drop or clicking.*

Hotspot questions

These questions include a stem and an image with one or more hotspot areas. Candidates identify specific areas based on the variant.*

Hotmatch questions

These questions have a stem and an image with hotspot areas that candidates match with corresponding drag-and-drop alternatives. The image contains only correct areas.*

Statement questions

These questions consist of a stem, several alternatives (statements), and two answer options, such as true/false. Multiple statements can be included in one question.*

*Partial scoring is possible.
