

Policy advisors on Learning Analytics

Focus counts! (Aligned with vision)

Why?

- More insights in reasons why certain things/issues occur e.g. dropout, low rates, master choices, attendance

- Translate vision -> Data and selection of Data
- Do it yourself data on several levels (management, teacher, student)

- Beware of biased interpretations
- No Data Diarrhea
- Privacy, Ethics and Integrity versus Information needs

Needs

Concerns

- Beware of anarchy, organize a structure /governance
- Validate Information need

Conditions

- Sexy tools keeps analyzing going
